

Do you care for patients with Parkinson's Disease?

Share your story with us

What?

We want to hear your stories such as:

- ① What is your experience caring for Black and African American people with Parkinson's Disease (PD)?
- ① What are barriers to people with PD and their caregivers getting care?
- ① What helps people with PD and their caregivers get care?
- ① How can care for people with PD be improved?

Why?

Our research study is looking for ways to improve health equity among Black and African American people with Parkinson's Disease (PD).

With your insight, we can work to help patients and their families get better care and possibly be included in research to improve their lives and the lives of other people with Parkinson's Disease in the future!

How?

You'll speak with a team member for 1-2 hours, where and when is best for you

And you'll get \$50 for your time
