

Do you or someone you love have Parkinson's Disease?

Share your story
with us

What?

We want to hear stories from Black and African American people with Parkinson's Disease and those who care for them, or have cared for them in the past:

- ① What has your experience with Parkinson's Disease been like?
- ② How has your healthcare for Parkinson's Disease been?
- ③ What would improve healthcare for Parkinson's Disease?
- ④ Have you participated in research or community services related to Parkinson's Disease? Why or why not?

Why?

Our research study is looking to help Black and African American people with Parkinson's Disease get better care and possibly be included in research to help make healthcare better and easier to get.

By sharing your story, you can help people in your community – people who look like you and live where you live.

How?

You'll speak to a team member for 1-2 hours, where and when is best for you

And you'll get \$50 for your time
