

AOTA CENTENNIAL TOUR

PROFESSIONAL DEVELOPMENT WORKSHOP

The Role of Occupational Therapy in Disaster Preparedness Response

PRESENTED BY:

**Jennifer Creek, PhD, FCOT, DiCOT,
and Kit Sinclair, PhD, FWFOT, FAOTA**

Occupational therapists engage in disaster response and reconstruction, risk reduction planning and coordination mechanisms, and contribute pertinent expertise to response efforts while laying the foundation for more cohesive involvement and response efforts in the event of future disasters. This talk will address the roles and challenges of working in this area of practice and responding to not only disasters as they happen but also to risk reduction and preparedness. This presentation is eligible for three (3) PDU credits.

Saturday, May 6 • 8:00 - 11:00 a.m.

**Program in Occupational Therapy Auditorium
4444 Forest Park Ave.
St. Louis, MO 63108-2292**
