You will be asked to complete surveys related to your child's growth and learning. Your child will participate in a developmental evaluation that will use play activities to look at how he or she is moving and learning.

Visits can be completed at Washington University School of Medicine, St. Louis Children's Hospital or at your home.

You will receive a $50 gift card for your time.

Seeking Participants
- Children 0-30 months of age
  - Typically developing
  - Sickle Cell Disease

Study Purpose
Learn about your child's development at 9, 18 and 30 months

This research is made possible through funding from the NIH Heart, Lung and Blood Institute; award number K24 HL148305-01, K12HL137942

What you will be asked to do
